Outlook

The Group's revenue in the first half year of 2024 increased as compared to the same period in 2023 as the Group has spent more resources in social media and marketing partners since the last quarter of 2023. Sales slowed down in the second quarter and we expect sales will pick up in the second half of the

year. We will continue to promote the CRUSHMETRIC series of products. We believe that Tumbler is the Company's biggest and key product which will give the Company better margins.

We will continue to launch different popular colour variations of our SwitchPens and Tumblers to boost sales in the coming year. New design of our CRUSHMETRIC Tumblers will be launched shortly, where we have been collaborating with toy designers. We have also changed the sales strategy so that we will do more B2B and wholesale distribution, which the Board believes will bring more sales revenue and reduce the marketing and logistic costs.

The Board will continue to take all reasonable efforts to ensure that sufficient working capital is maintained. The Board's objective as always is to improve the business of the Group, minimise costs and generate more sales income through online products and at all times to protect and safeguard the best interests of the shareholders.

On behalf of the Board of Directors, I would like to thank our management and staff for the great loyalty and dedication that they continue to show through these delicate times. I would also like to extend our utmost appreciation to all our partners, shareholders, customers, business associates and suppliers, for their continued support.
